DIGITAL ASSIGNMENT-1

WEB TECHNOLOGIES

BACHELOR OF TECHNOLOGY
IN
INFORMATION TECHNOLOGY

BY

Routhu Sai Praneeth(20BIT0095)

Poddaturi Pavan Kumar(20BIT0243)

Koonamneni Janavi(20BIT0248)

Faculty
Dr. R. Vijayan

SCHOOL OF INFORMATION TECHNOLOGY
VIT VELLORE UNIVERSITY.
VELLORE -632014

TOPIC:

EDU KNOTS

Abstract:

Our project revolves around the idea of connecting the under Graduation students with one another, bringing them onto one common platform.

May it be books, exam papers, necessities or general talks queries, it will all be available on our website.

The website is designed to be user friendly and beneficial, keeping in mind the needs and challenges faced by the students,

especially freshers thus scoring a few brownie points amongst them.

With the aid of languages like html, css, javascript and under the guidance of Dr .Vijayan.R, our team was able to build the website successfully.

Web Technologies Used:

1. HTML
2. CSS
3. Javascript
4. JQuery
5. Json
6. AngularJs
7. Ajax

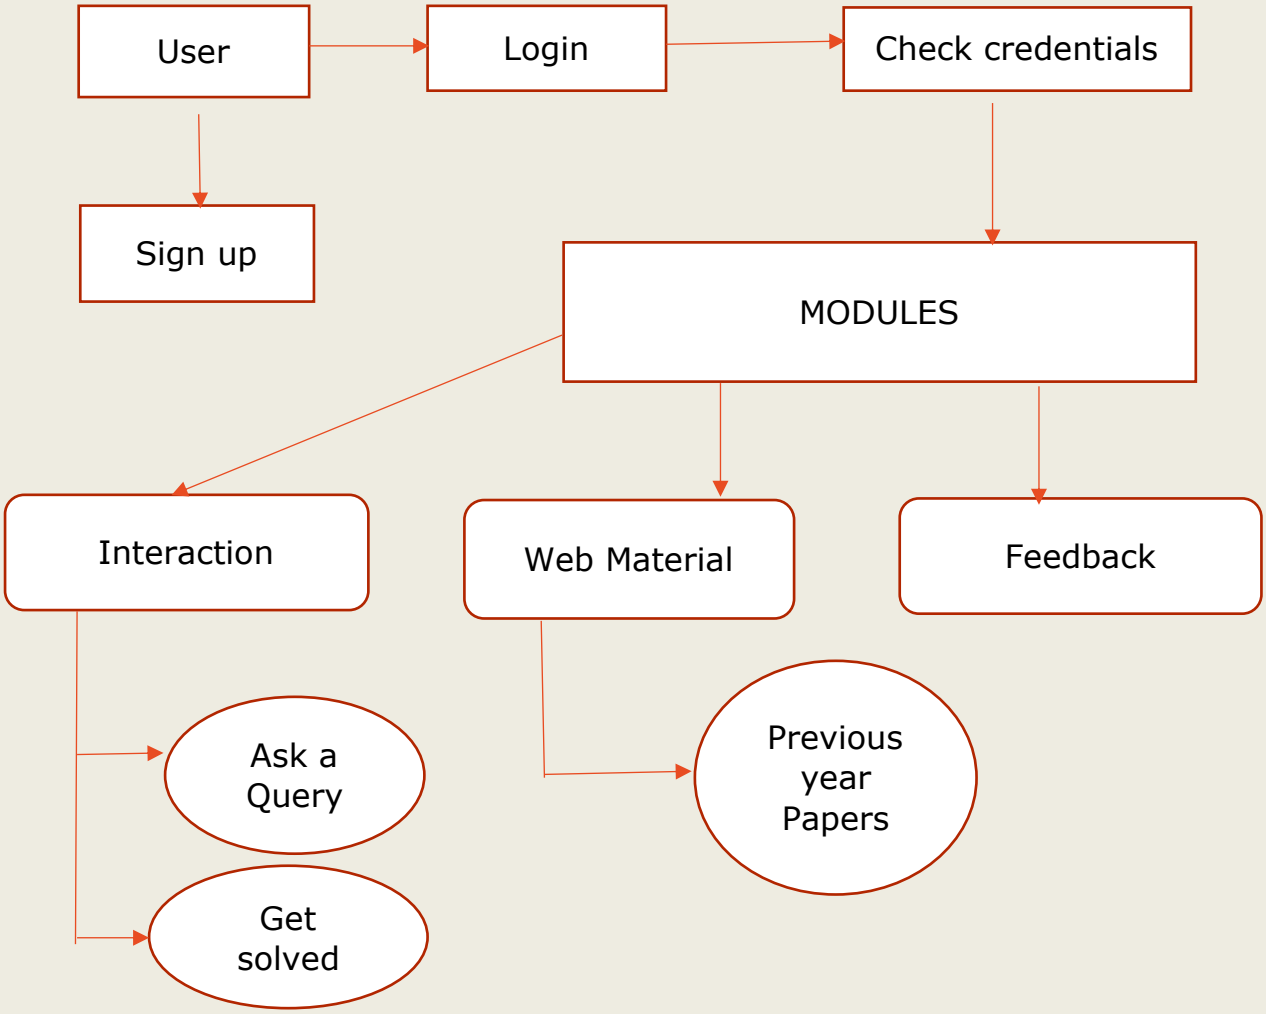
Various Modules:

User Login/Credentials Management ○ Query System

Web Material Upload ○ Previous Years Question Papers

Comic and other journal.

HIPO chart depicting various modules and sub modules:



Description:

We utilised html, css, javascript, Jquery, angular js, json, and ajax to develop our project.
We used java script for form validation in the query page and display manipulation while moving through different pages.
For the books tab, jQuery was used.
In addition, we used jquery to upload all of the books.

In the sign in and sign up pages, Angular Js was used for form validation.
Ajax and Json were used to upload the question papers so that the user may download them from Google Drive.
The layout and styles of the web page are implemented using CSS.
